

Transforming in-house dining from a convenience to a benefit

More than just breakfast and lunch

Your employees work hard to make your business great! We can help you reward their effort by providing amenities that make their home life less stressful. While most food service management companies will shut down service once lunch is over, Georgia Fresh Foods can provide hot and ready to eat meals for your employees to take home as they leave work, refrigerated and frozen meals ready to take home and heat, and convenience store staples to save a trip to the supermarket.

HOT, READY TO EAT MEALS

Several times a week we will offer entrees and sides for pre-order by your employees. They can order in person, via the company intranet, or by phone. We accept orders through mid-afternoon and have the fully prepared meals and sides ready to go as the employees leave for the day. This popular program is an employee favorite and helps with those hectic nights when family and work obligations leave no time to prepare dinner.

TAKE & HEAT MEALS

We will offer a daily selection of refrigerated and frozen, take and heat meals and sides. Your employees will appreciate being able to stop in on the way home and choose from a variety of single serving, and family sized favorites such as: Lasagna, Bourbon Glazed Salmon, Chicken Parmesan and more. The items come packaged in oven safe containers when possible, and have cooking instructions and nutritional information included on the packaging.

IN-HOUSE MARKET

We are your In-House Market, saving you a trip to the store. We could offer milk, bread, eggs, deli meat, paper towels and more.

Managing in-house dining

Our local focus allows us to be extremely efficient, which leads to management fees and subsidies that average 30% lower than the large national management firms.

In-house Catering

BRANDED CATERING OPTIONS

Georgia Fresh Foods operates several retail concepts.

Chuck's Famous

Chuck's Famous features classic sandwiches made with house roasted meats on fresh baked artisan breads.
